

Monte Selby fees and travel expenses

When Monte books a date, he is willing to work with students, staff, parents and/or community for the full day. For each one-day booking, he commits up to three days of his time for preparation, travel, presentations, and follow-up.

Important considerations:

The actual contracted amount for any event can be significantly reduced:

- a. when there are multiple days in the same general location,
- b. when there is limited travel (close to home),
- c. during off-peak times of year, or
- d. for specific conferences and special events.

As an environmental consideration, Monte works to coordinate travel and reduce use of fossil fuels. He will help schools and organizations make connections and plan for multiple days in a single location.

TRAVEL EXPENSES

Travel expenses will include flight, rental car/fuel, hotel, and other necessary expenses to reach the location. Monte works to keep flight and other travel expenses to a minimum. He will research costs and send a travel cost estimate when requested.

FEE

The fee for a one day event in the USA is \$3,000.

The fee for a second day in the same general location is \$2,500.

The fee for each additional day is \$2000.

There is no charge for planning that occurs in the weeks prior to the visit.

There is no charge for travel days.

There is no charge for the follow-up work with teachers.

For songwriting work with students, Monte will provide recordings of all compositions to the school/students. For week-long residencies, he can make arrangements for feedback from professional producers and hit songwriters.

Each event and situation is unique. Monte will help customize each event, and can work with organizations to reduce fees and travel costs.
